Bryce Walker
Direct Market Coordinator

It's my first Next Phase catalog and it's an absolutely blistering one: we're launching our First Saturday In May titles. *Conan* and *Gun Honey* will be our offerings for the best day of 2026!

And they are in good company with the rest of our December Catalog offerings. Long-running epic video game *Diablo* gets its own comic in *Diablo: Dawn of Hatred*. This month sees the return of the living undead girl, *Lenore* in the *Curse of the Beebee Yaga*.

Manga also gets a stacked lineup with the launch of the darkly hilarious *Unemployed Killers Support Group* and a brand new Mech Manga in *Gizmo Riser*. Lastly, in the Graphic Novel world we *Return to Skull Island* with an Inhyuk Lee Direct Market Edition and the amazingly zany *Craniacs* bursting into life across the pages of their first graphic novel collection.

Have a great month and I hope the Holiday season treats everyone well. Don't forget Titan are always keen to work on exclusive store covers, so please get in touch if you are interested. I can be contacted at: bryce.walker@titanemail.com

Akarat, the ancient legend whose teachings spawned the Zakarum faith, has risen from death. He claims he has returned to spread peace, love, and the Light. His powers healed the leader of the Fox Tribe, and now the barbarians are amongst his most loyal followers.

All but Derris. Though his people have sworn themselves to Akarat and the Light, Derris knows that the cycle of violence consumes Sanctuary sooner or later—an opinion shared by the mysterious Vrexia, another skeptic swept up in Akarat's caravan. But when assassins come to slaughter Akakrat, Derris must either save the holy man...or watch his tribe be cut down.

New pulp-tastic tales in the tradition of Robert E. Howard.

A deadly new foe hunts Conan the Barbarian, tracking his spirit wherever he travels - a killer with keen blade in hand and teeth from old prey strung 'round his neck. The cult of the Black Stone wants revenge against the Cimmerian and the Son of the Tooth is their weapon of choice.

*"**Zub's accessible storytelling**, coupled with art that would have John Buscema swelling at the seams, **escalates everything** fans already love about Howard's world: satisfying beat-downs, bottomless mythopoeia, and **vibrant characters who basically peel themselves off the page.**"*

There's been a lot of buzz in the Titan Comics office about Unemployed Killers Support Group, so Titan's Bryce Walker spoke with creator Rio to talk Support Groups, Taiwanese Manhwa and more!

BW: It's a very intense manga that balances humor throughout - did you always intend to write with this style in mind or did it come naturally through the creation process?

RIO: Half and half, really! When I first started developing this story, I wanted to present a tragicomedy. But at the same time, my work has always fallen under the dark comedy label—I suppose I'm the type of person whose creative output reflects their everyday tastes. I'm a big fan of films by the Coen Brothers, Martin McDonagh, and Quentin Tarantino, so I've been influenced by them and naturally gravitated in that direction.

BW: Locker's such a great protagonist - despite life's troubles he's got a slick self-aware personality that really stands out. AND what were inspirations for Locker?

RIO: Though he's completely different—the inspiration actually came from Arthur Morgan in Red Dead Redemption. I was just so devastated about losing our Arthur that I ended up creating another gunslinger caught up in circumstances beyond his control. There's also a bit of Doc Holliday in there. Every version of Doc gives off this sense of having half-given up on life, and I wanted Locker to exist in that state—left with nothing but meaningless self-mockery whilst waiting for something to happen around him.

BW: There are so many strong characters throughout - Jordi and Maze were my favorites even though their stories were so opposite. Do you have a character that you felt stuck with you the most?

RIO: I'm fond of Jordi too. Originally, I had absolutely no idea what story to give him, but in the end, his arc became the one I was most satisfied with after finishing it. Wherever he goes, he's just an ordinary person—perhaps that's what makes him feel so genuine and endearing...?

BW: What sequences were the most fun for you to create?

RIO: I loved... the bit where Cole gets so annoyed at Ford for touching him without washing his hands that he turns into American Psycho... I also quite enjoyed the phone sex hotline part.

BW: What do you hope readers take away from Unemployed Killers Support Group?

RIO: This story might leave readers feeling a bit disappointed—all the conflicts don't seem to be resolved by the ending, and the problems that should be there are still there. But that's what real life is like, isn't it? Often, we can only try to dilute the pain a little bit with each round of hardship we face.

BW: In recent years, we've seen the sudden increase in popularity of Manhwa - Taiwan has a rich yet often underrepresented manga scene. How do you see the state of Taiwanese comics today, AND what challenges or opportunities exist for creators like yourself?

RIO: Wow, that's a complex question that could be turned into a thesis.

Taiwan's comics creation environment is quite peculiar. If you want to create manga, you can aim for publishers that emulate the Japanese and Korean comics industries, or you can choose to self-publish or release at doujinshi conventions/events (which is how I started). But I feel the current state of Taiwanese comics is that creators, readers, and the industry aren't quite sure what they want from the domestic market, which has resulted in it being somewhat non-mainstream, seemingly unprofitable, or dependent on government subsidies to survive. However, the advantage of this anarchic phase is the freedom it provides—hopefully Taiwan can produce many influential works during this period that will shape the future. For Taiwanese comic artists, I'd recommend: Walkaround and Pen Point.

TITAN MANGA

In the towering kingdom of Urunaria, society is literally built on inequality. The wealthiest reside at the top, while the poor are confined to the dark, crumbling depths below.

For Kuro, a young slave raised by his uncle in the lowest levels, life offers no future - only labor, loss, and silence. But when his uncle is executed by the state, Kuro inherits a mysterious device: Gizmo - a pair of mechanical gloves with the power to grip, scale, and defy the very system built to crush him.

Armed with nothing but this outlawed tool and his burning desire for freedom, Kuro begins his ascent, both up the tower and against a society that deems him worthless.
